

Rite Aid Weekly Couponing Guide

This is your first weekly guide to use while shopping for Operation: Slickdeal. These guides are meant for the new coupon shopper learning the ropes. These deals are the cream of the crop, so you will have to shop early to beat the competition. I am concentrating on simply using coupons from the Sunday paper from the current week.

You will find help for any particular store in that week's current thread [here](#) and you can read the FAQ [here](#).

Please start by buying two Sunday papers.

Rite Aid has its own similar system to Register Rewards called +UP, you will need your Wellness+ card to get the +UP Rewards. The Wellness+ card is free and you can get it in the store. Here are the items we'll be purchasing and the coupons we will be using this week.

Noxzema Disposable Razors 3ct – normally \$2, you will use a \$2 manufacturer's coupon from the newspaper, so the item is free.

Soft Soap Body Wash – normally \$2.99, you will get a \$2 +UP, so the item is \$.99 (limit 4)

There are two transactions for Rite Aid as well, you can combine this into one if you would like. If you do one transaction, then your out of pocket will be more, but you will more UP+ rewards to use next week as well.

Transaction #1

Buy two body washes and two razors, using the two coupons from the Sunday paper. It will ring up like this:

Body Wash: \$2.99
Body Wash: \$2.99
Razor: \$2.00
Razor: \$2.00
Subtotal: \$9.98

Use two of the razor coupons from the Sunday paper.

New Total: \$5.98

You will now receive 2 +UP rewards, totaling \$4. These are on the bottom of the receipt.

You can go back later in the week and get two more body washes. There is a glitch in the system, if you try to buy the second two the same day, your UP+ rewards may not print. If you would rather not go back later, you can buy all four body washes in your first transaction. You will pay more out of pocket, but will end the week with four \$2 UP+ rewards.

If you have time and want less out of pocket then you can do two separate transactions. The second transaction later in the week will look like this:

Body Wash: \$2.99
Body Wash: \$2.99
Subtotal: \$5.98

Use the UP+ rewards you previously earned

New total: \$1.98

And you will receive two more +UP rewards totaling \$4. Save those for next week.

In total, you will be getting \$15.96 retail value for \$7.96 out of pocket, and you will have \$4 to use towards next weeks purchases.
